

I am a **Lawyer turned Software Engineer**, having 4 years of legal experience as a corporate and intellectual property attorney. As a Software Developer in a short span of 6 months I've worked on various frameworks/languages like, **JavaScript, Golang, Python, React, Next.js, Express.js, Node.js, MySQL, PostgreSQL, MongoDB, Html & Css** additionally on **GitHub, Jira & bitbucket**. I am a highly motivated individual with a track record of success in handling high-stakes matters with precision and efficiency, making me an ideal candidate for any organization looking for a driven, results-oriented individual. Moreover, my aptitude for learning and adapting to new environments allows me to excel in collaborative settings and be a team player.
